SECTION 1: BIDDING INFORMATION

1. PURPOSE OF THE REQUEST FOR PROPOSAL

This Request for Proposal (RFP) is to request qualifying facilities management companies to submit management proposals for Ekandustria Industrial Park, for a period of 3 years.

MEGA will evaluate the development proposals based on the evaluation criteria outlined in heading five (5) below.

2. BACKGROUND

Ekandustria was established in the 1980's as part of the Industrial decentralization programme for former "homeland areas". It has always been one of the key Economic hubs in the Kangala Area. The Park hosts a diverse a mix of manufacturers of food, timber, leather, and plastic products among others. In addition to being the owner, MEGA also supplies water & electricity to the tenants. About 82 factories are active and occupied by tenants, and these employ around 2100 people. Current estimates put the estimated potential monthly rental revenue at more than R 2.6 million which would translate to about R31,2 million per annum. Potential revenue from the supply of water and electricity is about R10 million per month, which translates to R120 million per annum. The Park also has 168 vacant stands, which present an opportunity for new developments, and some dilapidated structures that can be refurbished/rebuilt to increase revenue generation.

Improvements on the land include:

- a) 101 large factory units [191 754 m²].
- b) 31 small factory units [4 275m²].
- c) 168 Serviced stands [1 738 229m²].
- d) Electricity supply – 132 KV Substation & 11KVA section.

Portfolio condition is as follows:

- a) 20% in very poor condition - needs major refurbishment.
- b) 30% are in poor state - major maintenance backlog.
- c) 30% of the portfolio is in a good condition.

d) 20% are in a very good condition.

MEGA currently owes the City of Tshwane more than R200 million in overdue payments for bulk municipal services (i.e., water and electricity) purchases and property rates. The City of Tshwane bills MEGA for the bulk purchases of water and electricity and MEGA in turn charges the individual tenants according to their level of consumption. The municipal account debt has been accumulating over the past 3 to 4 years because MEGA has consistently failed to collect/generate enough revenue to cover the costs of the electricity and water sales. A solution to this needs to be found as a matter of urgency to arrest the situation and settle the debt with the city.

Key challenges include:

- a) Settlement of overdue City of Tshwane Municipal account.
- b) Backlog on maintenance to properties.
- c) Limited internal capacity to manage leasing and utilities infrastructure, ensure proper billing and collection of revenue due to the entity.
- d) Inability to take advantage of existing renewable energy generation potential (i.e., solar and waste to energy opportunities) presented by the park.
- e) Lack of financial resources to refurbish the industrial buildings, key infrastructure such as the wastewater treatment plant, landfill site as well as roads.
- f) Turning the Park around from a loss-making into a profit-making property.

3. PROPOSAL

The property presents an opportunity for the private sector to partner with MEGA in its management and turnaround. Companies with sufficient capacity both financially and in terms of expertise are hereby invited to submit proposals for the management of the park such that revenue generated from leasing of factory buildings and the sale of utility services can be optimized.

Interested service providers have an option of responding to the facilities management aspect only or the utilities management aspect only or both. MEGA reserves the right to appoint a company for one of the aspects even where a bidder would have submitted a bid including both aspects.

In case a bidder wishes to submit a proposal for both aspects, the bidder must submit two separate documents in respect of 5 (3) below.
