BID FOR THE APPOINTMENT OF A SERVICE PROVIDER FOR MAINTENANCE OF ELECTRICAL NETWORK AT EKANDUSTRIA AND SIYABUSWA INDUSTRIAL PARKS FOR A PERIOD OF THREE (3) YEARS.

1. INTRODUCTION

The Mpumalanga Economic Growth Agency, hereinafter referred to as “**MEGA**” is a schedule 3D entity of the Mpumalanga Provincial Government with a mandate of stimulating economic growth in the Province through inter alia:-

- (i) the provision of funding to SMMEs, Co-operatives and Agricultural enterprises, as well as the provision of housing loans to citizens of Mpumalanga within the gap market;
- (ii) proactively identifying investment opportunities within the Province, attracting investment into such opportunities through various trade and investment promotion initiatives, as well as facilitating that such investments into the province derive maximum development impact;
- (iii) delivering massive infrastructure within the Province;
- (iv) the development and management of property in the form of industrial Parks which stimulate economic activity in the Province.

In exercising its powers and functions as articulated in the Act, [“the MEGA Act 1 of 2010”], the entity must continually broaden the participation of Mpumalanga citizens in all the sectors of the economy and accordingly contribute, whether directly or indirectly, to the alleviation of poverty, unemployment and inequality.

2. PURPOSE

- 2.1 The Mpumalanga Economic Growth Agency intends to appoint a credible service provider for the provision of professional services for the maintenance of electrical network at Ekandustria and Siyabuswa MEGA Industrial Parks for a period of three (3) years.

3. BACKGROUND

In terms of the Act, MEGA has a responsibility to adhere to a number of regulations that ensure the achievement of its objectives such as, real financial growth and sustainability, clean and unqualified audits and improved financial management capability maturity. The regulations in the Act include providing for, *inter alia*:

- Sound financial management;
- The efficient and effective management of all revenue, expenditure, assets and liabilities of the company; and
- The provision of responsibilities of persons entrusted with financial management in the organization.

Ekandustria and Siyabuswa industrial Parks are amongst MEGA's three largest industrial Parks inherited from the former homeland government of KwaNdebele. Ekandustria is currently within the Tshwane Metropolitan Municipality's area of jurisdiction. It was established in the 1980's as part of the then industrial decentralization programme for former "homeland areas". It has always been one of the key economic hubs in the eKangala Area. The Park hosts a diverse mix of manufacturers of food, timber, leather, and plastic products among others. Siyabuswa Industrial Park is in the DR JS Moroka Local Municipality within Nkangala District Municipality in Mpumalanga Province. Siyabuswa industrial park has an estimated 27 factories, and Ekandustria has a total of 106 factory buildings, an office block, and a waste-water treatment plant.

In addition to being the Parks' owner and landlord, MEGA also supplies water and electricity to the tenants. The electricity distribution and supply infrastructure in both industrial Parks belongs to MEGA and requires on-going maintenance and upgrading.

MEGA intends appointing a credible service provider that will be responsible for the maintenance of the electrical networks at Ekandustria and Siyabuswa Industrial Parks for a period of three (3) years.

4. SCOPE OF WORK

The scope of work entails the maintenance of the electrical network feeding into buildings owned by MEGA at the identified (industrial) sites. The scope of works can be broken down as follows:

- 4.1 Operations and Management (O and M) recovery plan for Ekandustria and Siyabuswa Industrial Parks. The O and M recovery plan can be for the short to medium term as well as for the long term. It should be based on hands-on investigations and assessments of the current electrical infrastructure as well as conducting interviews with the Local MEGA officials. Interviews can serve as a source of information for historical trends in electrical breakdowns. The aim of the O and M plan is to create a systematic course of action and priority matrix which then can be used for implementation.
- 4.2 The Service Provider should formulate a predictive or preventative maintenance strategy and plan. Currently, there is no maintenance plan implemented and a reactive strategy is often adopted.
- 4.3 Where applicable, work with the Facilities Manager to identify critical electrical capital projects that can be implemented for the area of Ekandustria and Siyabuswa. A project priority matrix to this effect can also be formulated by the Service Provider.
- 4.4 Maintenance services to the electrical network including attendance to electrical and associated emergencies at Ekandustria, and Siyabuswa Industrial Parks.
- 4.5 Provide advisory services on all electrical network development needs.
- 4.6 Generate monthly reports on the state and performance of the electrical network at the identified sites (i.e. Ekandustria and Siyabuswa Industrial Parks)
